

New Partnership Release: Chipkin Automation Systems Inc. & Intesis

Chipkin Automation Systems Inc. has entered into a partnership with Intesis to become its North America Distributor. Chipkin will now provide a new array of products for Building and Home Automation.

VANCOUVER, British Columbia - March 12, 2018 - [PRLog](#) -- Chipkin Automation Systems Inc. proudly presents a new partnership that will incorporate their highly-reputable service with Intesis' innovative products. Chipkin now offers a wide range of solutions on the Intesis platform. Effective Immediately, Chipkin will sell and service all IntesisBox and IntesisHome products.

Chipkin Automation Systems Inc. is an expert at building and industrial automation protocols. Since 2000, they have sold, supported, developed, installed and configured protocol converters/gateways, data loggers, routers, stacks and control applications.

Also founded in 2000, Intesis is a leader in design, fabrication and commercialization of innovative solutions for building automation. Intesis has products and services like IntesisHome and IntesisBox. With customers in over 90 countries worldwide, they are constantly pushing R&D and staying dedicated to Home and Building automation.

IntesisBox is designed specifically for Air Conditioner integration and the protocols supported are **KNX, BACnet, ASCII, EnOcean, Modbus, LonWorks, OPC, and Wifi**. With Chipkin's expertise in data communication and Intesis' new product range, they are now able to provide complete solutions specialized for Air Conditioners.
