

BACnet Router Upgrade - New and Improved BACnet Router for only \$255 during the month of April, 2019.

Chipkin Automation Systems Inc. is proud to announce a much-anticipated product upgrade and introductory launch price for the BACnet Router. It is now available with a faster CPU, more memory, built-in BACnet Explorer, a sleek new look, and more!

Vancouver, BC, Canada - March 19, 2019 - Chipkin and Sierra Monitor Corporation are proud to announce a major hardware & software upgrade to the BACnet Router. The following major improvements and upgrades are now available:

- Smaller Form-Factor (uses less space on DIN rail)
- Faster CPU
- More Memory
- Built-in BACnet Explorer (makes it easier to troubleshoot installations)
- Full cloud-based Remote Access at no additional charge (allows remote installation troubleshooting; reduce truck rolls and solve problems more quickly)

For the entire month of April, the new BACnet Router will have an introductory price of only \$255. That's a savings of \$40.00 per device!

The BACnet Router (FS-ROUTER-BAC2) offers a complete BACnet solution for BACnet/IP, BACnet Ethernet, and BACnet MS/TP networks while providing a secure connection to the cloud.

If you're looking to get more information, or you would like to purchase the BACnet Router, send us an email: salesgroup1@chipkin.com or visit our website:
